

Expectations

1. Plan - What's the list of stuff you need to get done? What will you do first?
 - a. Ready - Did you meet your DoR? What's left?
 - b. Done - What things need completed to reach DoD?
 - c. Is your working agreement visible?
2. UTDD until you reach "DONE"
 - a. Use your design
 - b. Pair on everything - Switch drivers frequently
 - c. STOP and Fix
3. Ensure your Acceptance Tests are passing, and your living documentation is sufficient to make all stakeholders comfortable.

! All models are wrong...so what do you do when they are?

! Be ready for periodic share-outs and reviews

! If the whole team takes a break, let us know
