

Definition of Ready (DoR)

- ✓ PO confirms ready
- ✓ Dev teams confirm ready
- ✓ 1/4 sprint or smaller
- ✓ Acceptance criteria defined
- ✓ Test strategy complete
- ✓ No unresolved dependencies
- ✓ Design workshop done (if arch significant)

EXAMPLE DOR

Building a Definition of Ready

Activity

GOAL

Craft a definition of ready for the work items your team will complete this week.

What are the things that must be true before we are willing to put hand on keyboard?

INSTRUCTIONS

- As a team, craft a definition of ready for the work you will complete this week. This will be added to your code repos in the near future.
- Limit scope to this week's work, not some ideal state.
