Eventually...distill into tests

Feature: Checkout

In order to keep an inventory of our media
As a librarian

I *want* to be told the **due date**
and **status** of media after *checkout*

Name

The name of the
scenario we're
exploring

Scenario: Children's books

Given the current date is 5/22/14

And the name of the media is Cat in the Hat

And the availability is Avail

And the type is Kids Book

When the book is checked out

Then the availability should be Checked Out

And the due date should be 6/5/14

And the message should be Success

Preconditions

Things that are true
prior to this event /
system operation

Operation

Description of what
the system operation

Post Conditions
