

We'll do some of this for the case study
soon but first...

some vision

Operational Evolution

As envisioned by DevRel

| | | |
|----|------------------------|--|
| 01 | Continuous Integration | <ul style="list-style-type: none">• Share changes frequently• Automate development workflows |
| 02 | Continuous Delivery | <ul style="list-style-type: none">• Release changes regularly• Automate releases• Automate deployments |
| 03 | DevSecOps | <ul style="list-style-type: none">• Bring teams together• Automate environments• Integrate security end-to-end |
| 04 | GitOps | <ul style="list-style-type: none">• Everything-as-code (declarative)• Continuously reconcile changes• Reverse the stream (pull-based releases) |
