## **Story Mapping**

**Actor** (singular noun) - What human roles have problems we are solving?

### **Goal/Activity**

(verb-noun) - What are they trying to accomplish? Each of these are atomic and independently valuable.

## Make us a map!

- Brainstorm actors first
- Start with goals for Player
- Add more detail if you have time

#### **Feature**

(verb-noun) -What will we build to satisfy the user's goal? Each is an end-to-end slice of value.
